SAFETY KEY

See important notice below for information on the UKCA/CE standards coding changes.

SAFETY STANDARDS SHOWN BELOW AND ON FOLLOWING PAGES MEET BOTH CE AND UKCA REQUIREMENTS FOR CERTIFICATION

EN ISO 20345:2011

Toe protection tested with 200J impact and 15kN compression force. Fuel Oil resistant outsole. (SB)

A Antistatic Electrical resistance between 100kΩ and 1000MΩ

P Penetration resistant outsole of 1100 Newtons

E Heel energy absorption 20 Joules

HRO Heat Resistant to 300°C for 60 seconds

SRC Anti slip tested on ceramic tile wetted with dilute soap solution and smooth steel with glycerol

WRU Water resistant leather uppers

CI Cold Insulation Certified to -17°C for 30 minutes

AN 10J ankle impact protection

HI Heat Insulation Certified to +150°C for 30 minutes

Short code combinations:

S1 SB + A + E + Closed seat region

S2 As S1 + WRU

S3 As S2 + P + Cleated outsole

S5 As S3 except uppers are in rubber or all polymeric material

ESD Electrostatic discharge Class 2 – Dissipative

EN388 covering protective glove construction, abrasion and blade cut resistance, tear strength and puncture resistance.

IMPORTANT! UKCA/CE STANDARDS CODING

CHANGES. The new coding format is already appearing on a number of Buckbootz products. The change will extend to all products on a rolling change basis.

WE SEE YOU

The big Buckbootz story for Autumn/Winter 2023/24 is the launch of the We See You campaign which turns the spotlight on the Buckbootz high visibility safety footwear collection.

Buckbootz are pioneers and leaders in the development of high visibility safety footwear. The first nine pages which follow present a choice of hi-vis waterproof safety footwear products which is unparalleled. You won't find a bigger or better one anywhere.

Buckbootz has delivered some real watershed moments in safety footwear product development and 2023 has had its full share with the arrival of Bang Guardz, Buckzviz Rigger and Highleg lace styles, BBZ 8000 in all green livery, Walkerz, B1180 and Lacerz. That group nearly puts the class of 2020 in the shade!

Innovation in our sector has become an overused term. At Buckbootz we pride ourselves in uncovering design and performance features for safety footwear which you probably didn't realise you would benefit from. That is the Buckbootz dimension which brings real safety, comfort and durability benefits to you.

Page 26 is dedicated to the arrival of our great new lace style **Lacerz**. A boot which takes some classical features and style details and wraps them in a great looking full safety spec waterproof package.

Thank you for your interest in Buckbootz products. During these autumn and winter months stay dry, warm and comfortable but most of all, **Stay Safe.**

Kind regards,

Andrew Duncan
Chairman and Co-founder, Buckler Boots Ltd

VAT/Safety Footwear

Safety footwear styles with the exception of shoe styles are exempt from UK VAT. Safety shoe styles and non-safety work boots are subject to VAT at the UK standard rate. If you are purchasing safety footwear on behalf of your employer then VAT should apply at the point of purchase.

WE SEE YOU

Buckbootz Buckviz. Pioneers and leaders in high visibility and reflective safety footwear.

Buckbootz is the brand which pioneered and leads the market for high visibility waterproof safety footwear.

By having Cordura®, one of the toughest materials used in outdoors apparel and footwear, interact with leather, Buckbootz created BuckViz, thanks to having Cordura® in safety footwear grade strength produced in high visibility orange and yellow. With shimmering reflectivity included in the specification Buckviz offers safety footwear with unparalleled visibility.

In partnership with Buckbootz renowned range of BBZ8000 neoprene/rubber safety knee length boots, a complete high visibility and reflective, waterproof safety footwear package is created.

Quite simply, there is nothing else quite like this product grouping on the market.

Now the Buckbootz hi-vis programme receives even more visibility with the release of an evocative video which carries the message 'We See you' from which the video and the associated media campaign takes its name.

Go to [youtube.com/@buckbootz](https://www.youtube.com/@buckbootz).

Buckbootz shines a light on all those for whom visibility in the workplace can mean the difference between life and death.

WE SEE YOU

Buckbootz BBZ 8000. Pioneers and leaders in high visibility and reflective safety footwear.

Buckbootz has taken its pioneering neoprene/rubber S5 safety boot from the renowned BBZ6000 to the ground breaking hi-vis/reflective BBZ8000 in development stages spanning fifteen years.

The BBZ8000 range offers a great choice of hi-vis/reflective colour combinations but up until now there has been a gap. That gap represents those wearers whose preference is for a boot which provides BBZ 8000 protection including built in reflectivity but in a more subdued colour option. That search is over: BBZ8000 GR is here. A great looking BBZ in a tasteful Forest Green shade trimmed with 360° reflectivity to provide that vital element of visibility and safety when worn at dawn, dusk, in darkness and dim winter daylight. BBZ8000 GR - safety with subtlety. See opposite page for full details and spec for BBZ8000 GR.

Buckbootz shines a light on all those for whom visibility in the workplace can mean the difference between life and death.

A STROLL IN THE DARK

Our dealer network tells us and we believe it, our tried and tested BBZ 5020 non-safety knee boot has the lowest rate of return of any similar product on the market.

And now a new dawn beckons. We bring Buckbootz latest sole/upper construction and renowned expertise in designing high spec, high performance, super comfort neoprene/rubber safety footwear to those whose requirement is no more than taking the dog for a walk or going for an evening stroll - safely.

Walkerz® are walking wellies like no other on the market. With reflective detailing and trim enhancement they provide 360° visibility - night and day. But that's not all. Walkerz® provide total ease of fitting and removal. Collar roll in is eliminated at fitting thanks to the sloped design which accommodates two pull on levers. Removal is made easy with heel kick-off spurs. Like most good ideas, simple. They look great too!

STAY DRY STAY SAFE SHED WEIGHT LOOK GREAT

From its unmistakable Buckbootz 'Hard As Nails' profile to its rugged good looking dealer boot styling **B1180** carries its Buckbootz heritage and branding with pride. With its extended whole cut vamp and beefy heel counter this is a waterproof safety boot with gravitas and real substance.

Using construction and components designed to withstand the roughest treatment, **B1180** combines strength with light weight thanks to an aluminium toecap, kevlar midsole and the new Buckbootz K11 dual density sole. K11 lets us retain all the legendary Buckbootz rubber outsole durability and features which now include ladder grips, at a weight

saving which will win over a new generation of Goodyear welted safety boot wearers. With Buckbootz characteristic attention to detail we have beefed up the outer sole rubber depth at the critical heel/ground contact area.

B1180 also brings three dimensional Buckflex fitting with three flex-stretch areas at the boot collar. This makes fitting and removal a stroll in the park and enables the collar to retain its neat look and snug fit at all times.

THEY SAID IT COULDN'T BE DONE!

After two years of constant design development and wear testing Buckbootz announced a major breakthrough in dealer boot design in 2022: **bANG guardz**®.

Like many good ideas the solution to providing ankle protection on a dealer style is a simple one: build the stretch area into the top part of the front of the boot to enable the ankle protection to be built into the sides. However, that is only the beginning of the story. The real test is in perfecting the boot upper design and components combination so that all the wearer convenience of a normal dealer boot design is not compromised. Getting that right has brought an impressive bonus: you would not believe how comfortable the **bANG guardz**® dealer boot style is, nor its lace style stable mate. The EN/UKCA standard ankle protection (standard code: AN) built into these styles provides the extra benefit of unsurpassed snug fit, comfort and support.

Both styles also come with Buckbootz Achilles Clasp heel support and S3 HRO AN SRC certification and both are **WATERPROOF** - **even the elastic on the dealer style is waterproof!**

bANG guardz® joins a long list of Buckbootz protected designs which have broken with convention and brought completely new dimensions to safety footwear performance, function and comfort.

BSH014 BK

- Pull on boot

BLITZ BLASTS A HOLE IN THE MARKET

One of Buckbootz most successful product launches came in late 2020. **Blitz** has gone on to blaze a trail of record sales in all our sectors including agri/country where it was forecast to have little or no profile at all. A magical formula which combines strength, full safety spec, waterproof and super lightweight with cracking good looks has seen **Blitz** blast a hole in the market which gets bigger by the day.

See pages 23-25 for the complete Buckbootz Tradez® range.

A Protected Design of Buckle Boots

LACERZ:® DEALERZ WITH LACEZ

If you are a **Buckbootz® Dealerz®** fan and would like the option of having key elements of that distinctive yet uncluttered boot style with lacing closure then **Lacerz®** will bring you joy.

If you're not familiar with **Dealerz®** then you'll like **Lacerz®** classic plain toe profile with that vital bit of comfort width and the whole cut, quadruple stitched galosh look which projects an image of footwear with a real outdoors pedigree. But don't be fooled. **Lacerz®** eye catching appearance conceals a safety boot with a specification which literally wipes the floor with a host of competitor products for whom rugged reads dull.

DEALERZ® S7S HRO FO LG WR/WPA NON-METALLIC

Injection moulded safety footwear

Buckbootz has been at the forefront of the development of the elastic sided work boot style which we call 'dealer'. Our original dealer style safety boot B1150 has become something of an icon and has been followed by variations of the dealer style in injection moulded construction. So why introduce another variation of the theme? Well, when it comes to Buckbootz dealer style safety boots we believe you can't have too much of a good thing and that is why we introduced **Dealerz®** with plain toe styling to our Nubuckz range with the option of a non-safety specification. See page 32.

TAKING CARE OF BUCKBOOTZ FOOTWEAR

Buckbootz leather styles

Our **Beez Wax Leather Gel** bring nourishment to the cowhide leather uppers on Buckbootz footwear.

The gel brings the satisfaction of applying the leather treatment by rubbing goodness into the leather and restores the distinctive and unique look you get from quality leathers.

Boots used in tough working environments get rough treatment but their life can be greatly extended by making sure that muck, loose dirt debris and grime are removed from the uppers at least once per week using no more than a brush and a small amount of water. Allow them to dry naturally then apply the gel treatment. There's no harm in applying a little gel to boots before their first wearing.

Never harsh dry leather!

Wet boots should be stuffed with dry newspaper and allowed to dry naturally before rubbing Buckbootz Leather Gel into the leather. Care should be taken not to use the gel too liberally. Over exposure to gel and other conditioners can cause the structure of leather to break down irreparably.

Harsh drying will cause the leather to shrink crack and go brittle. This condition cannot be reversed.

BBZ Buckbootz Neoprene/Rubber Boots

Should be hosed down at the end of every day's wear. By virtue of their leg as well as foot protection, wellington type boots tend to be worn in environments where they come into contact with many external agents which can break down and weaken the structure of the rubber if not removed. This can lead to the rubber weakening and cracking.

Wash down with warm water after the boots have had contact with diesel, petrol, lubricants and other petroleum derivatives.

A spray called ReviveX® will help to restore the flexibility and appearance of the rubber areas but regular hosing down after use will go a long way towards extending the effective life of BBZs.

Buckviz Hi-Viz Cordura® areas of the uppers

Use warm water with a soft brush, allow to dry then apply Nikwax Tent and Gear spray.

OUR HEART AND SOLES

There has never been a Buckbootz style which hasn't featured rubber outsoles

Tradez® Blitz

This great looking rubber outsole is a fitting companion for our great looking Tradez® Blitz safety wedge cleat design for our great looking Tradez® Blitz safety lace boot style. The contemporary chunky sports footwear thermo polyurethane arch and heel inserts. UKCA/CE anti-slip certification, non-marking and Fuel Oil resistant.

Tradez® - Baz/Kez

Street look with workplace performance. Unmistakeable sneaker side profile gives way to a sneaker sole re-modelled for tough working environments. UKCA/CE anti-slip certification and non-marking. Heat (300°C) and Fuel Oil resistant.

K11

A brand new non-marking dual density sole complete with certified ladder grips. Amazing weight saving whilst retaining Buckbootz reputation for creating tough and durable rubber outsoles. Extra rubber at heel/ground contact area. Heat (300°C) and Fuel Oil resistant. Lock stitching at toe.

K12/BBZ8000/WALKERZ®

BBZ8000 is a great product from the soles upwards so it is vital that the soles incorporate the very latest tread design techniques to maximise grip, extend life and reduce weight. K12 does all of these plus it comes with UKCA/CE anti-slip certification and is non-marking. Heat (300°C) and Fuel Oil resistant.

Buckshot®

The Buckshot® sole is featured on our injection moulded Buckshot boot range. It has some of the best anti-abrasion test results achievable. A great looking sole with wave effect sipes, deep cleats and all the outsole benefits which come with rubber plus UKCA/CE anti-slip certification and is non-marking. Heat (300°C) and Fuel Oil resistant.

Nubuckz/Buckviz®/Dealerz®

For our injection moulded Nubuckz, Buckviz® and Dealerz® styles we use a deep cleated rubber outsole specially designed to interact with the polyurethane top sole in which the anti scuff toe is an incorporated and defining feature. Heat (300°C) and Fuel Oil resistant and non-marking with Ladder Grips.

K3

The renowned Buckbootz sole for most Buckbootz Goodyear welted leather styles and BBZ6000 and BBZ5020 neoprene/rubber footwear. Features weight saving wave effect sipes and inherits the rugged long life characteristics for which Buckbootz is renowned. UKCA/CE anti-slip certification. Heat (300°C) and Fuel Oil resistant. Lock stitching at toe.

WE SEE YOU

Buckbootz Buckviz. Pioneers and leaders in high visibility and reflective safety footwear.

Buckbootz is the brand which pioneered and leads the market for high visibility waterproof safety footwear. By having Cordura® - one of the toughest materials used in outdoors apparel and footwear, interwoven with leather, Buckbootz created Buckviz, thanks to having Cordura® in safety footwear grade strength produced in high visibility orange and yellow. With shimmering reflectivity included in the specification Buckviz offers safety footwear with unparalleled visibility.

In partnership with Buckbootz renowned range of BBZ8000 neoprene/rubber safety knee length boots, a complete high visibility and reflective, waterproof safety footwear package is created.

Quite simply, there is nothing else quite like this product grouping on the market.

Now the Buckbootz hi-vis programme receives even more visibility with the release of an evocative video which carries the message 'We See you' from which the video and the associated media campaign takes its name. Go to youtube.com/@buckbootz.

Buckbootz shines a light on all those for whom visibility in the workplace can mean the difference between life and death.

WE SEE YOU

Buckbootz BBZ 8000. Pioneers and leaders in high visibility and reflective safety footwear.

Buckbootz has taken its pioneering neoprene/rubber SS safety boot from the renowned BBZ6000 to the ground breaking hi-vis/reflective BBZ8000 in development stages spanning fifteen years.

The BBZ8000 range offers a great choice of hi-vis/reflective colour combinations built up until now there has been a gap. That gap represents those workers whose preference is for a boot which provides BBZ 8000 protection including built in reflectivity but in a more subdued colour option. That search is over: BBZ8000 GR is here. A great looking BBZ in a tasteful Forest Green shade trimmed with '360°' reflectivity to provide that vital element of visibility and safety when worn at dawn, dusk, in darkness and dim winter daylight. BBZ8000 GR - safety with subtlety. See opposite page for full details and spec for BBZ8000 GR.

Buckbootz shines a light on all those for whom visibility in the workplace can mean the difference between life and death.
